## CRV Session Procedures Report (S/NF/SK)

Control Number	:	8704
Date of Session	:	19Mar87
Date of Report	:	20Mar87
Source Identifier	:	021

1. (S/NF/SK) Tasking: See original tasking data sheet, attached. No further instructions received.

2. (S/NF/SK) Session: Several source inclemencies. Although these did not appear to be serious, monitor (suspecting a possible "story line" coming on) decided to "throw source a curve", to wit, begin session in S4, then pursue a circuitous route to the target, continuously keeping source off guard. Although this technique wasted valuable session time up front (in the absence of S1, monitor caught himself off guard trying to figure out where we were), the session did accomplish its objective--more target indicators were produced.

3. (S/NF/SK) Summary: Site is an open, barren area "in the middle of nowhere". Very strong perception of heavy construction activity and preparation--unoccupied, but ready to be used when/if needed. There are two types of manmade structures on the site: one type is flat-topped, the other has a curved surface on a flat surface. There is a radiating, emerald green associated with the area. (A bright flash may be related in some way). [Note: Source experienced much difficulty in attempting to objectify the concept of this pervading, ubiquitous "green"--light was the only (possibly correct) word-idea available]. Monitor induced source AI by placing her "in the green": Source perceived the green going right through her, producing an "invaded, weakening, dissolving, draining, light-headed, disorienting feeling" (AOL-like a "CAT scan").

4. (S/NF/SK) Feedback: (Post session) Monitor instructed source to write down any more data that she might become aware of with regard to the "green".

area is very high — away from civilization.  
Ground in area is AOI like form frost.

one type is flat-topped, the other has a  
curved structure on a flat surface. There  
is only one access to the area. There is a

clear, distinct, shorter, louder, sharper.  
The area has an un-occupied fuel to it AOI-like  
It's been built, is it standing, now ready  
to be used by nuclear

At fresh - I wouldn't want to be caught in  
the middle. Invaded feeling when in the  
middle of the light - running - It's  
going right thru. Weshenig. Disinfecting  
feeling. Running - light headed.  
Disinfecting.

United. Short-term effect. Nothing  
permanently disturbing.

At fresh -  
light &  
car seem.
